

IT staff under **SIEGE?**

Is your IT staff perpetually besieged by new PC deployments? Time to call in the special forces. Wallingford Computer Services can free up your IT staff & get them back on strategic projects, saving you time & money when you buy new computers.

We manufacture to your specification, then configure & load all your software, apply your asset tags, & can deploy the PCs directly to your end-users' desks. We'll even cart off the empty boxes.

Wallingford Computer Services keeps your IT staff at peak readiness & gets your PCs operational quickly & effectively.
